Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	Collect rainfall and water level data	Run the ML model to predict flood risk	View prediction and take precautions
Touchpoint <i>What part of the service do they interact with?</i>	Weather department data, sensors	Machine Learning prediction system	Prediction report or alert
Customer Thought <i>What is the customer thinking?</i>	"Will there be a flood?"	"Is my area at risk?"	"What should I do now?"
Customer Feeling <i>What is the customer feeling?</i>	Curious	Concerned	Safe and prepared

Process Ownership <i>Who is in the lead on this?</i>	• Data Collection Team	• Machine Learning Team	• Disaster Management Team / User
Opportunities <i>How can we improve this stage?</i>	• Use more accurate and real-time data	• Improve prediction accuracy	• Provide earlier warnings and safety guidance
